

Your 2005
Rx Selections™
Member Guide

Bring this with you to each doctor visit and save money when your doctor prescribes **generics** and **preferred medications**.

Benefit reminders

- **Use a participating retail pharmacy to fill your prescriptions.**

You'll pay only your co-payment up front.

- **Use *Medco By Mail* for medications you take on a long-term basis.**

You'll generally pay less for up to a 90-day supply. And your order can be conveniently delivered to your home or office.

- **Medco may contact your doctor about your prescription.**

If you have a prescription for a nonpreferred medication, but a preferred alternative exists, Medco may contact your doctor to ask whether the preferred drug would be right for you.

- **Your plan may have certain coverage limits.**

If you submit a prescription for a medication that has coverage limits (e.g., for specific uses or for a specific days' supply), the participating pharmacy will let you know that more information will be needed from your doctor.

Visit **www.medco.com** for more information about your prescription drug plan or to find a participating retail pharmacy near you.

Rx Selections Member Guide

What is this guide?

This guide contains a list of generic and brand-name drugs that are preferred by your health plan.

- You will pay the **lowest co-payment** for generic drugs.
- You will pay a **higher co-payment** for brand-name drugs that are included on your plan's list of preferred drugs ("preferred").
- You will pay the **highest co-payment** for brand-name drugs *not* included on your plan's list of preferred drugs ("nonpreferred").

Follow these easy steps to save money on prescription drugs:

1

Bring the guide with you to each doctor visit.

2

If you need a prescription, ask your doctor to consider prescribing one of the less expensive generic or preferred brand-name drugs in this guide.

Table of Contents

Allergy/Asthma/Respiratory

- 2 generic drugs
- 3 preferred drugs (on your plan's drug list)
- 16 nonpreferred drugs (not on your plan's drug list)
